

Army Cloud Computing Enterprise Transformation (ACCENT)

The Army Cloud Computing Enterprise Transformation (ACCENT) contract provides technical support for the transition of Army enterprise systems and applications migrating to a commercial cloud environment or an Army Enterprise Hosting Facility (AEHF).

ACCENT Program is:

- ▶ The preferred source for Army commands for commercial cloud hosting, data center migration, transition support and modernization services
- ▶ Services and solutions for the Army to migrate enterprise applications to commercial cloud services
- ▶ Commercial cloud services from approved Cloud Service Providers (CSP) and Cloud Service Offerings
- ▶ Support for modernization and migration requirements for the Army Data Center Consolidation Plan (ADCCP)
- ▶ Simplified acquisition of modular or mobile hosting facilities

▶ CLOUD HOSTING

- ▶ Commercial cloud hosting in any combination of service models, deployment models and Impact Levels defined in the DoD Cloud Computing Security Requirements Guide (CC SRG)
- ▶ Infrastructure as a Service (IaaS) - Provision and utilize IT resources
- ▶ Platform as a Service (PaaS) - Streamline deployment of cloud applications
- ▶ Software as a Service (SaaS) - Manage and control underlying cloud infrastructure

▶ TRANSITION SUPPORT

- ▶ Analysis of applications & security requirements
- ▶ Technical and business process engineering
- ▶ Documentation
- ▶ Modernization: code refactoring and augmentation
- ▶ Migration planning and scheduling
- ▶ Planning:
 - Interface and service transitions
 - Cutover
 - Back-out
- ▶ Go-live support

▶ MODERNIZATION

- ▶ Refactor or consolidate legacy software program to more closely align with business need for cloud migration
- ▶ Develop application documentation for modernization or to improve maintenance and testing efficiency
- ▶ Identify approaches to modernize applications to enhance business value

Services Provided:

- ▶ **Cloud Hosting Services:** Certified offerings for IaaS, PaaS, and SaaS capabilities to meet Army requirements
- ▶ **ViON Cloud Deployment Services:** Deploy modern infrastructure quickly with IaaS/PaaS solutions residing on/off customer premises and assist with application migration
- ▶ **ViON Cloud Transformation Services:** Provide a road map from current-state to future state cloud infrastructure through
 - (1) Cloud Advisory
 - (2) Cloud Enablement
 - (3) Cloud Operations
- ▶ **Cloud Security and Compliance:** Assist the development of a comprehensive Information Security (IS) program combining compliance and security
- ▶ **Cloud Migration:** Evaluation, testing, and support to perform the migration, ensuring applications and system meet requirements and SLAs
- ▶ **Cloud Enablement Services:** Ensure and track mission success via automation, repeatable tasks, measurable progress and monitorable dashboards
- ▶ **Cloud Managed Services:** Defined, repeatable processes for consumption, security management and finance to transition from legacy to cloud ready applications
- ▶ **Cloud Deployment Services:** Leverage ViON's end-to-end transformation services model for reliable and repeatable frameworks to achieve targeted outcomes

What You Can Expect:

Team of five Cloud Service Providers (CSPs) with nine DoD Provisional Authority (PA) Certified Cloud Service Offerings (CSOs)

Alignment with the Army Data Center Consolidation Plan (ADCCP) requirements

Migration to a cloud business model without application transformation

Enhanced Security Compliance with current best practice standards

Automated, repeatable, and measurable processes to ensure **successful Cloud Migration**
